

The G.F. Company is currently searching for qualified CAD Draftsman applicants.

Applicants must:

- Possess a high school diploma or equivalent
- Possess an Associates of Applied Science degree in the CAD drafting field or a Certificate of Completion in the CAD drafting field from a trade school
- AutoCAD and inventor experience is a plus
- At least one (1) year minimum CAD drafting work experience

The G. F. Puhl Company designs, manufactures, installs and services pneumatic waste paper reclamation systems for companies in the commercial printing, folding carton, corrugated box, envelope, direct mail, package printing, board converting, and document destruction industries.

If you possess the above mentioned qualifications and are looking for a CAD drafting position in an industry such as ours, please forward your resumes to me at:
